Monument Bay, Manitoba

- 100% owned
- Acquired from Bema Gold Corp. and Wolfden Resources Inc.
- Located 570 km northeast of Winnipeg; 60 km southwest of Red Sucker Lake
- 35 contiguous claims totaling 6,692 hectares
- Since 2000, CDN \$28 million has been spent on the project
- Since 2000, 70,000 metres of drilling has been completed, including Bema completing 65 diamond drill holes totaling 9,500 metres in 2005
- Scoping study underway by Beacon Hill to define mining economics and evaluate the potential of mining the deposit
- Recently updated inferred resource calculation (January 2008) from 2 drilling programs totaling 16,716 metres (over \$6 million spent) totaling 4,888,000 tonnes grading 6.01 g/t Au for 944,000 oz of gold

Domain Project, Manitoba

- Large land position over portions of the God's Lake greenstone belt in northern Manitoba, Canada
- Measuring 20 km by 7 km totaling 14,000 hectares
- Acquired initial 51% from New Dimension Resources with opportunity to increase to 65%
- Historic near surface intersections of significant gold mineralization including 5.4 g/t over 1.32 metres
- Exposure in significant gold bearing iron formation
- Recent drilling extends gold zone over 750 metres in strike length. Assay results include 30.9 g/t over 0.70 metres
- 20 hole, 2,500 metre diamond drill program commenced in February 2008 at Domain Property in northern Manitoba, Canada
